Dear Landowner/Water User:

The Arvin-Edison Water Storage District Board of Directors, at their December 8, 2020 meeting, following a detailed review of the 2021 Water Year Budget, the fixed 2021 Water Year (WY) Surface Water Service Area "Standby" charges and "Water Use" charges to be as proposed and explained in the November 30, 2020 landowner letter for an average year stayed the same and dry year changed slightly as defined below (see also Exhibit A).

Average Year Charges - (unrestricted water allocation)

The average year scenario "Standby" charges and "Water Use" charges will be in effect if the District does not have to restrict water use during the 2021 WY. The 2021 charges are as follows:

Standby Charge (\$/AC):	\$100.00 (Water Use charge to be credited)
<i>Water Use Charges:</i>	
Water (\$/AF)	\$115.00
First Energy Lift (\$/AF)	\$ 47.00
Energy Lift(s) 2-6 (\$/AF/lift)	\$ 17.00

Dry Year Charges - (restricted water allocation, prorate period in effect)

Should 2021 WY require a restricted water allocation (similar to the 2014-2016 WY's), the District will implement a multi-month prorate period. The "Water Use" charges will remain the same as the Average Year charges; **however, the \$100/AC "Standby" charge will be replaced with a non-refundable Prorate Period "Standby" charge.** The amount of the "Standby" charge will vary depending on the prorate allocation.

Standby Charge (\$/AC):	\$8 to \$64 (Non-refundable)
<i>Water Use Charges:</i>	
Water (\$/AF)	\$ 115.00
First Energy Lift (\$/AF)	\$ 47.00
Energy Lift(s) 2-6 (\$/AF/lift)	\$ 17.00

The District will strive to timely inform the Water Users of the need to institute a Dry Year Program, and provide additional details once the United States Department of the Interior, Bureau of Reclamation (USBR) announces the 2021 WY supply declaration sometime in February/March 2021.

If you have any questions or comments, please contact us.

Sincerely,

David A. Nixon
Deputy General Manager
